

# Website Accessibility

We want everyone who visits [countryclubbank.com](http://countryclubbank.com), [ccbfinancial.com](http://ccbfinancial.com), [countryclubtrust.com](http://countryclubtrust.com), [towerwealthmanagers.com](http://towerwealthmanagers.com), [ccccapitaladvisors.com](http://ccccapitaladvisors.com), [thecapitalcorporation.com](http://thecapitalcorporation.com), [ccbcm.com](http://ccbcm.com), [banopath.com](http://banopath.com) and [wheatlandadvisors.net](http://wheatlandadvisors.net) (hereafter “**Websites**”) to have the opportunity to fully interact with and benefit from our Websites.

Accordingly, we’ve implemented recommendations from the **Web Content Accessibility Guidelines** (WCAG) as published by the Web Accessibility Initiative (WAI) of the World Wide Web Consortium (W3C.) These guidelines help us make our Websites accessible and user-friendly for everyone, including those with disabilities.

While there is no definitive test of conformance for meeting these guidelines, and the content on our website is always evolving, we use various methods to assess our accessibility and strive to meet Level AA of the WCAG. If you find specific areas on our websites that don’t meet the AA level, don’t hesitate to get in touch with us, and we’ll do our best to address the issue quickly.
